

## **Air Storage Tanks**

Phoenix Dynamometer Air Storage Tanks are available in many different configurations to fit your exact testing needs. From horizontal to vertical models with standard capacities from 40-1000 liters [10-265 gal], and 3/8" – 2" inlet and port sizes we are sure to have an air storage tank that is perfect for your application. If you require a custom Air Storage Tank, we can turn around a quote for you in a very short time.
